

Light upgrade

Always begin with creating/attaching screen/tmux

```
tmux a
tmux
sudo su
```

On metered Internet connection, light upgrade scenario

Do not do update, as it will update minor version for repos, which will force bigger update

```
#!/ DO NOT DO IT (unless want to update minor version)

apt update
```

This will automatically lead to minor version upgrade (version variable will be substituted)

```
anton@srg1jump1:~ $ sudo su
root@srg1jump1:/home/anton# apt update
