Instructions

To apply for eligibility to download strong encryption software images:

- 1. Ensure the address listed in your Cisco.com User Profile is correct and complete.
2. Review the conditions below and complete the questions.
3. Submit this form.

Conditions

Cisco products are subject to U.S. and local export control laws and regulations. Downloading party shall comply with all laws and regulations governing use, export, re-export, and transfer of products, technology and services and will obtain all required U.S. and local authorizations, permits, or licenses. Downloading party certifies that they are not a named party on the U.S. Department of Commerce's Denied Persons List or affiliated lists, the U.S. Department of Treasury's Specially Designated Nationals List or any Government export exclusion lists. Downloading party shall not electronically or physically transfer Cisco software images to any unauthorized persons, countries or entities without first obtaining required U.S. and any local government export authorizations or licenses. Downloading party agrees to abide by all export, import, use, and development and/or re-export laws in the country in which they reside. Downloading party acknowledges and agrees that Cisco Systems, Inc. is not responsible for the downloading party's failure to abide by any applicable law or regulation.

By clicking the Accept button below, I hereby certify that I, as a duly authorized representative of the organization identified by this Cisco.com User Profile, understand and agree to abide by the conditions set forth above regarding the usage of Cisco Systems, Inc. hardware and/or software.
